FIREMEN RETURN FROM CALGARY

Well Pleased With Their Trip Though Unsuccessful in the Sports.

The city firemen who were attending the tournament at Calgary returned to Strathcona Saturday afternoon well pleased with their trip to the southern city, but somewhat disappointed with the showing that they made in the athletic sports.

The hose reel team and their friends included Chief Grant, Secretary Peterson, Firemen R. Wells, W. Grant, W. E. Eassey, E. McRae, Raitt, N. Elliott, H. O. Ritchie, D. Eassey, T. McArthur, P. Hampton, L. Snee and A. Ferguson. The boys were successful only in getting fourth place in the hose reel race.

The chief event amongst the firemen was the reel race, and was again won by Red Deer, who beat out Innisfail by the fraction of a second.

The Calgary bunch, came up well but made a mistake in the uncoupling, thus losing considerable time.

The officials score and time were:

Calgary—Charneland, Fletcher, Carr, Robins, Cushing, Miller, McKay, McKinnon, McGraw, Henderson, Gillespie (capt.).

Before the sports commenced, the Calgary brigade turned out and with their visitors paraded the principal business streets of the city.

The C. P. R. has five teams and nearly 100 men at work putting in the siding to the site where the new freight shed is to be erected. The work will be finished in a few days.

LOCAL.

Roy and Athol Bisset returned yesterday from McMaster university, where they are taking an arts course.

The death took place at the hospital on Saturday of John Sollett, engineer for the Dooling Milling Co. He was taken ill some days ago with typhoid fever, and while on the way to recovery took a relapse with fatal results.

The funeral took place yesterday afternoon from Wainwright's undertaking rooms.

In investing money the most important point is safety. Fortunes can be made by speculating in wheat, real estate or stocks; and fortunes can be lost in the same way. The wise man looks for something surer, even if it looks smaller. The advantages a savings bank account has over all other investments are its absolute safety and its unswerving steady growth. 15,000 SOLDIERS HONOR THE DEAD

Canadian Troops Guests at Field Mass in New York for Soldiers Killed in the Spanish War

New York, May 26.—Beneath leaden skies from which fell a misty rain, 15,000 guests in the modern grass of the parade grounds at the Brooklyn navy yard today, participating in the fifth military field mass in memory of the sailors and soldiers who lost their lives during the war with Spain. In the center of the parade grounds an altar had been erected and at this the priests, robed in white and gold, surrounded by altar boys, celebrated solemn high mass in memory of the dead. In a great hollow square about the altar were formed the uniformed men who were present to do honor to the memory of those comrades who had given their lives for their country and their country's flag. The military forces present included the soldiers and marines from the navy yard and the Twelfth United States Infantry from Governor's Island. The National Guard was represented by the entire Sixty-Ninth regiment, two companies of the 47th and the third division of the Second Naval reserve battalion. There were also a thousand men of the First and Second regiments of the volunteers and 300 boys in white uniforms representing the Catholic Boys' Naval battalion. In a place of honor, their brilliant white and gold uniforms vividly contrasting with the blue karki of the other uniforms, were a regiment of Canadian troops who came to New York as the guests of the local branches of the Spanish American war veterans, to take part in the services. There were detachments of the Fifth Royal Scotch Highlanders, and sixty-fifth Mount

Royal Rifles, of Montreal, and the Fifth Prince of Wales Fusiliers, of Halifax, N.S. The Spanish war veterans, the Grand Army of the Republic, the Hebrew veterans, the sons of the veterans and the army and navy union were among the semi-military organizations who participated.

The First Regiment (uniformed rank) Knights of Columbus, escorted the celebrants of the mass from the barracks to the altar on the parade grounds. A detachment of five hundred firemen were also present in uniform. Of the marching organizations that wore no uniforms there were thousands of Knights of Columbus, twenty-one councils of the Catholic Benevolent Legion and five hundred of the Ancient Order of Hibernians. Besides all these, there were 81 delegations from the Margaret Chadeville auxiliary of the Gloucester Navy camp S. W. V., the Catholic Women's Benevolent Legion and the Daughters of Isabella. The services were held for Gloucester Naval camp, United Spanish war veterans Ezekiel Grant. The celebrant of the mass was father W. H. Boney, chaplain in the United States navy, who was assisted by Father Guentert, who was a brigadier-general in the civil war, Father John P. Chadwick, who was chaplain of the Main when that battleship was blown up in Havana harbor and Father Deshayes, chaplain of the 65th Mount Royal Rifles, of Montreal. Among the invited guests were Police Commissioner Bingham and Rear Admiral Coughlan, commandant of the navy.

DOLLAR WHEAT.

"It's an ill wind that blows nobody good."

"Dollar wheat" has been a fact in the winter plots of the continent during the past few days and in the local markets throughout the country, correspondingly high prices have ruled. This, of course, is a gratifying fact to the farmer that is, to the farmer who has wheat to sell, and to communities which are directly dependent on the success or failure of the grain growing business. And, curiously enough the people of Western Canada are enabled to share largely in the benefits of the ruling prices by the inability of the railways to haul their wheat to market when prices were lower.

It is a matter of a few weeks only since the western farmer was being tendered sympathy, and very properly so, because the railways had broken down and were unable to haul away his wheat. This, it was quite properly pointed out, was throwing the work of handling last season's grain into the summer, to interfere with the season's operations alike of the farmer and the railway company. Worse still it was pointed out ominously that a large amount of money had been borrowed by the western farmer on the prospect of last year's crop, and that until the railways could handle the wheat the farmer could not realize and discharge his obligations. Add to this that the pioneer farmer is usually a man of small means, and needs the return from his year's labor at the earliest possible moment, and the situation was surely serious enough to warrant attention.

Things have assumed a different aspect of late, however. Spring has opened, the railways are again operating normally, lake traffic has commenced, and now comes the announcement that the wheat the farmer could not get rid of a few weeks ago is wanted, and wanted badly—so badly that it is worth 31¢ in Chicago, 30¢ cents in Winnipeg, and correspondingly satisfactory prices elsewhere. It is seldom that the farmer benefits largely from a spring advance in wheat—for the excellent reason that the wheat has by that time usually passed out of his granary into the elevators of the dealers.

There is no reason to suppose that this would not have been the situation at present, but for the fact that the railways could not handle the grain a few weeks ago. The farmers were generally prepared to sell at the then prevailing prices, and had the railways been able to handle it practically the whole wheat would probably have passed before this from the possession of the farmers. There is sometimes as much money in holding wheat as in growing wheat, and this was one of the times. Thanks to the disability of the railways, the farmer is the man who did the holding, and who now has the chance of making the money.

It is estimated that practically two-thirds of the western wheat crop was left in the country when the railways broke down in mid-winter. If this 60,000,000 bushels of wheat can be disposed of at prevailing prices, the gain to the western farmer and the west generally by this enforced delay in marketing will be calculated in the millions. Supposing the average price received by the farmer to be only five per bushel higher than December and January prices, the total profit on our still unmarketed wheat would be something like \$6,000,000—or one dollar for every man, woman and child in Canada.

STETTLER.

The economy is in full swing again and it is to be hoped that the farmer will so arrange that a supply of cream, both in winter and summer, will be continuous in the future. O. M. Galloway, from Mt. Aspy, Southern Iowa, was one of the arrivals per the Inland Land car on Saturday last. Had not the town been in touch with the government regarding the installation of a municipal telephone system Mr. Galloway would have put in a system for the town.

THE POPULACE IS UP IN ARMS

In Guatemala Against Sentencing to Death of Nineteen Conspirators.

Guatemala City, Guatemala, May 24.—The court martial which has been in session here for three days to try the persons charged with complicity in the attempt on the life of the president on April 20th in this city today handed down sentences of death in the cases of nineteen of the prisoners before it. These findings have created intense excitement and popular feeling is so high that the carrying out of the sentences is doubtful. Two Italians, the brothers Tinetti, the owners of a machine shop and foundry here, are among those sentenced to death. The Italian minister to Guatemala, Senior Nagara, on one obtained information concerning the proceedings of court, and then personally informed President Cabrera that the trial had been distinctly irregular. He requested a prompt revision of the findings of court. The members of Italian colony of this city are particularly excited. In addition to the two Italians it is reported that the sentence of death has been passed upon the Vitor brothers, the Pardo-Romania brothers, and a woman named Lucastolano.

Will Ask For Annulment.
Mexico City, May 24.—News of the imprisonment and sentencing to death of the nine men charged with complicity in the recent attempt to assassinate President Cabrera of Guatemala, was received to-day in a telegram from Dr. Rodriguez Parra, Mexican consul at Guatemala City, who is in charge of affairs since the departure of Minister Gualtero. He says that the diplomatic corps met today and decided that each minister accredited to the Guatemalan government should ask President Cabrera for an annulment of the sentences, and that if this action did not bring immediate results, the diplomatic corps would direct a collective note to President Cabrera tomorrow. Among the men condemned to death are two Italians, Juan Stuardo, one Belgian and two Mexicans.

MACLEOD.

The long distance telephone is being installed here by the Bell people. The assessment notices for this year have been issued. The figures staggered most people, less that recently sold for from \$125 to \$150 appearing now assessed at more than double the original price paid for them. The dates for the Macleod fair have been fixed for July 31st and August 1 and 2. Immigration officer J. Danlop reports a great rush of immigration into this country, 536 people having come via Fernie during April, being more than double the number of the most desirable class of settlers. The Honeyville Brick Company have started operations and expect to have the sale first-class brick by about the first of June. The first kiln will be fired in a few days.

SPORTING NEWS

EDMONTON WON LAST OF SERIES

Bleasrud Handed Out Good Line on Saturday. Won From the Hat 7-2.

Medicine Hat, May 26.—Bleasrud was in fine form for the Capitals this evening, and succeeded in holding the locals down to five scattered hits. He had a world of speed, fine control and a dazzling assortment of curves and shoots. His performance this evening put him in a class with the Hat's star twirler. When the two met there was to be a battle royal. Bleasrud's only skip was made in the last inning, when he passed Hoyle and hit West. An error by Woeller and Hopkin's hit brought in two runs for the Hat. Edmondson's slick artists made things warm for Fox, who was hit safely ten times, four of them being two baggers. The score was:

LETHBRIDGE BEAT CALGARY.
Lethbridge, May 27.—One of the fastest and most exciting games of the two series played at the athletic ground was the one first heard here to night. Both teams broke into the run columns in the first innings, each scoring two, and they made a race of it all through, neither being more than one run ahead.

Calgary took the lead in the second, but this both teams held each other down until the fifth when Lethbridge went into the lead scoring two runs. Calgary got in seventh and eighth putting them in lead, but Lethbridge finished strong and by hard hitting at opportune times made two runs.

The score by innings:
Calgary.....210000110-3
Lethbridge.....20000002-0
Summary—Earned runs: Lethbridge 3, Calgary 2.
Three base hits—MacKinnon, O'Neill.
Runs on balls—Off Morrison 4, off Barnstead 8.
Struck out by Morrison 3, by Barnstead 7.
Left on bases—Lethbridge 9, Calgary 5.
Sacrifice hits—McLean, Spang, 2; Russell, Chandler, Farrell, Shyne, 2.
Time, 1 hour 45 minutes.

SPORTS OF ALL SORTS.
Messrs. Macdonald and Graham have been given the privilege of the baseball season ahead.
The Toronto Tecumsehs took the measure of the Montreal Shamrocks at Toronto Island on Victoria Day by a score of 7-5.
Tom Longboat, the Indian runner, may lose the sight of one of his eyes. In Hamilton, Saturday, on route from Caledonia to Toronto, when he ran against time, he was grabbed from behind by an enthusiastic runner, who recognized the runner. Longboat turned suddenly around to see his captor and his eye came in contact with the lighted end of a cigar, which the drunk held in his mouth. Harry Rosenblatt, Longboat's manager, hurried him to a hospital, where the physicians say he will likely lose the sight of the eye.

SECOND MATINEE OF DRIVING CLUB

Will be Held at Exhibition Park on Wednesday Afternoon.

The Edmonton Amateur Driving Club will hold its second matinee of the summer season at the Exhibition Park, Wednesday afternoon, at 2:30 o'clock. This is practically the first matinee, as two weeks ago very few of the horses were in shape to go. On Wednesday, however, a full field in all classes is looked for. Since then the horses have had more or less work. The members have secured jogging carts or gentlemen's road wagons, and the secretary, who has ordered a complete line of caps and coats, expects them in any day. All together the Driving Club will present to the public every other week as good a class of races as can be seen at any of the large fairs and better, in as much as they are not conducted for money or gain, but in a spirit of friendly rivalry, which is the only true sport. The club in their rules and regulations have prohibited anything pertaining to the professional, and claim that real sport can be derived from open contests without money prizes or betting.

The management requests all those who wish to participate in the races during the coming season to be there on Wednesday, so that the horses may be properly classified before races for cups are started.

RIVER HEIGHTS

RIVER HEIGHTS

The beautiful residential subdivision of River Heights is now being offered for sale for the first time at prices and terms which bring home sites within the reach of all.

River Heights takes in the south-easterly 50 acres of river lot 10, all within the city limits of Strathcona, and 50 acres of river lot 21, adjoining the boundary line of the city. A circle with the Alberta hotel for a centre and a radius of one mile cuts the property in the middle.

The inauguration of a street car service will bring all this property within ten minutes' ride of the busiest part of either city. The property which Premier Rutherford recently gave Strathcona for a park is right at the south end of the River Heights subdivision.

As a homestead nothing better has ever been offered. The prices are not inflated. They are placed low for a quick sale, but only a limited number of lots are to be sold and these are to be placed, as far as possible in the hands of actual home builders.

Municipal improvements, such as water works, light, sidewalks, etc., will all be forthcoming within a year or so on account of this fact that home building is to be encouraged.

The lots which are not sold on the first sale will be kept off the market until these improvements are secured and the owners will do everything in their power, by petition and a willingness to bear a fair share of the rates involved, to see that these improvements are secured at once.

This is not an "out on the prairie" proposition. It is right in town. If you care to see the property come to the office and take a drive over it with us. It will only take a few minutes of your time and may make you hundreds of dollars.

There are 11 view lots in R.L. 10 to be sold. These lots are 50 x 160. Y.M.C.A. CAMPAIGN TO RAISE \$25,000 BY JUNE 1

Has Been Inaugurated. This Amount is Required to Complete New Building. Working Committees Organized for Campaign. Chairman Appointed

"The Young Men's Christian Association meets all the aid that is asked. Its mission is great and responsible. It has principally to do with men in the making, not the finished article; with the blundering, untamed few natures, not disciplined men of mature ages."

"It is a young men's club for the training of young men in all that makes for their best welfare. The impression that there is an air of sanctity about the association quarters which places an unwholesome restraint upon young men is dying out in the face of facts. No place in the firm, and the hearty laugh, and the lusty greeting more in evidence. The association is providing the solid practical helplessness that young men stand so much in need of, and it is doing something practical to help our young men grow up intelligent citizens, knowing their duties and responsibilities, able to render an intelligent vote upon municipal and national matters, and to play a worthy part in all that affects the welfare of their city and their country."

"It is teaching them the secret of true manliness, pushing out where they may be of service to their fellow men, and cultivating aspirations to do something in the land in which their lot is cast. The association is not for ever aiming, it is accomplishing. No organization has a better claim upon the sympathetic interest and financial support of those who desire to see the young men of our city attain to a robust and noble manhood, and at the present time, when an appeal is made for funds to further and establish the work of the association in this city, the response of all citizens should be most generous."

The above is from the Ottawa Free Press of recent date, where they have accomplished the raising of \$20,000 for a new building to take the place of
